Dear Mr. Fields,

I'm 75 and in impaired health so it would not be possible for me to undertake the book you suggest.

However, if you have any documentation for what you say, as distinguished from what you tried to do, I would like to see it.

For example, have you any way of identifying those you say used you as a courier?

You do not say what you did with the photographs and documents.

Is there any way you can establish that?

We agree on the government's failings and misconducts.

Sincerely,

Harold Weisberg
